Wollina U (2017)

Ich leide seit Jahrzehnten an einer Psoriasis pustulosa von Zumbusch und zwar immer nach Infekten....(Leserbrief).

PSOMagazin 43; Heft 4: 32.

Wollina U (2017)

Meine schon seit 50 Jahren vorhandene, mittelschwere bis schwere Psoriasis wurde erfolgreich mit dem Biologikum Remicade (Wirkstoff Infliximab) behandelt. 2008 wurde Prostata-Krebs diagnostiziert und die Prostata operativ entfernt. Das Biologikum setze man sofort ab. Seit 2016 gelte ich als vom Krebs geheilt. Ist nun eine Wiederaufnahme der Behandlung der Schuppenflechte mit einem Biologikum zulässig und sinnvoll? (Leserbrief)
